## Focus

Leadership Cayman (LC) is a dynamic, intensive, interactive, six-month experience designed to promote and enhance community leadership through an in-depth introduction to social, economic, business and political issues in the Cayman Islands.

LC class members interact with diverse, high-level community leaders and decision-makers by organising and attending a series of seminars and retreats in fields ranging from business, government, education, media, social services, criminal justice, diversity, the arts and more. Through these interactions, members learn about their personal leadership styles, nourish their community spirit and gain invaluable understanding of how our community works.

The bonds forged among the members of each LC class are deep and long lasting, offering both personal and professional benefits. Whether you are new to the area or just want to learn more about the important issues facing the community in which you live, LC is an excellent investment of your time and talents.

## Benefits

- Become part of a rich learning community made up of leaders with unique backgrounds and perspectives.
- Develop a deeper understanding of social, economic, business and political issues affecting our community.
- Learn about meaningful ways in which you can make a difference by giving back to our community.
- Tap into a network of leaders in each class and establish contacts with diverse groups of professionals in both government and the private sector.
- Increase your awareness of your own unique leadership and teamwork skills.

## Special Features

### Exceptional Speakers

Leaders who will share their knowledge and experience

with LC class participants will include the Governor, MLAs, senior civil service post holders, judges, journalists, prominent business professionals and leaders from the non-profit arena. Your opportunity to learn from — and ask questions of — these leaders and decision makers is a very special feature of the LC experience.

## The Sister Island Trip

During the two-day Sister Islands seminar in Cayman Brac, class members will meet with leaders from a variety of sectors and explore issues specific to Cayman Brac and Little Cayman. This is a special opportunity to explore the various challenges and opportunities faced by the Sister Islands.

## Community Service Project

Each year, LC class members select a local, not-for-profit organisation and design a project to benefit that organisation. Following planning, fund raising and coordinating, class members join together on “Project Day” to create immediate and tangible results for the charity while strengthening their own commitment to community service.

## Leadership Cayman Alumni Association

After graduation, class members will be invited to join the alumni association. The goal of the alumni association is continued networking as well as keeping members informed and involved on issues affecting our community.
