Success is found in education

Opportunities for employees to learn and grow are vital to the health of an organization, as well as the individual. The Professional Development and Training Centre has been formally providing training since 1995, addressing topics of considerable interest to local businesses and the community. The Centre has successfully completed ten courses for this 2004 training year and is in the process of preparing for and introducing many other highly effective courses, which will provide even greater skill development for employees, as well as, employers. Some of the courses coming up in April include: [Team Working](#) April 13th with Mr. Terry Carson, [Dealing with Difficult Customers](#) April 20th with Mr. Rod Waddell, and [Microsoft PowerPoint](#) April 21st. Additional training opportunities are on our website www.caymanchamber.ky. Register for success today.

Mentoring Cayman builds youth leadership skills

For the second year, Mentoring Cayman participants are enjoying the chance to make a difference in the lives of some of our youth. Participants have been sharing how the Mentoring Cayman programme has been allowing them to work closely with a student, and seeing where they are making a difference. Workplace visits have become a highlight for many of the mentors, as well as, the students. If you are a senior manager and interested in becoming a mentor for the 2004/2005 programme which commences in September you are encouraged to contact Scott Swing at the Chamber of Commerce office or visit our website at www.caymanchamber.ky for information on getting involved in this wonderful opportunity.
